Bachelor Degree : Computer Science (Current Grade 8.4)

2024 - 2028 (estimated)

National and Kapodistrian University of Athens

High School Diploma : Grade 19.7/20 & Panellinies 19.000/20.000

WORK EXPERIENCE

CTO /Digital Product Manager - PionUs

February 2025 - Present

PionUs is a startup I co-founded with two friends. We provide **consulting services for maritime businesses**, leveraging artificial intelligence and data management systems - as part of "Ennovation" Competition by ACEIN.

My roles : I developed the website and I was part of the product and business management. I used Ora and Jira for my tasks and I gained valuable experience in Product Management.

SELF INITIATED PROJECTS

- [RSA](#) : I completed a C implementation of the RSA encryption algorithm, built for educational and demonstrative purposes.
- [Full Stack Website Hook & Grab](#) : Hook&Grab is a full-stack website developed by 5 friends of mine and me, for Odyssea's 2nd Blue & Circular Economy Hackathon. It offers a marketplace for fishermen for recycling old fishing equipment and prevent sea's pollution. Our implementation and the idea won the 1st place.
- [Full Stack Website for CS students](#) : I'm currently building a full-stack website to prepare students for Panhellenic exams in Informatics. It features quizzes, flashcards, annotated textbook notes, and visualized algorithms to support engaging and efficient studying.

SKILLS

- Soft Skills** : Project/Product management, Teamwork , Creativity , Passion , Communication , Problem Solving , Work ethic & reliability , Time management , Adaptability , Critical thinking.
- Tech Skills** : Ora, Jira, Notion, Computer Architecture, Linux, Networking Fundamentals, C , C# , Python, HTML , CSS , SQL , JS , React.js
